EMBOSSING WHEELS

WILL be made to order to imitate any hand stamp border. Give the number of the stamp you wish to imitate and the number of rows you want upon the wheel and we will send price of same by return mail. These wheels are carefully made and are a success.

STEEL NAME STAMPS.

STEEL NAME STAMPS. 25 cents per letter

The price for an oval stamp with 3-16 inch flat faced Gothic letters is 25 cents per letter.

While the above described stamp is the choice of nearly every saddler, I am prepared to make the most difficult designs and letterings of every description, including autographs.

Name stamps for marking tools—letters 1-20 to 1-8 inch—20 cents per letter.

Alphabets and figures of every description at reasonable prices.

READ THIS

From Mr. M. G. Clark, foreman at Padgitt Bros. for the past ten years and well known to most of the saddlery men of Texas:

"I have tried the knife, which I got of you, thoroughly, and like it as well, if not better, than any knife I ever used. In fact I paid \$3.50 for a round knife which was not as good as this one. I let the saddle cutter use it and he praised it very highly."

M. G. Clark

232. Round Knives, Oval Mahogany Handles.

5 inch	\$ 90
5½ "	1.00
6 "	1.10
6½ "	1.25
7 "	1.75
Head Knife, 4½ inch	60

These knives are equal if not superior to the highest priced knives. Having overcome the well-known difficulty of tempering a very thin piece of steel of irregular shape and thickness; these knives are hammered thin to within about an inch, or less of the handle before tempering, thus making the grain finer and the cost of grinding less, although the medium priced knives are thin only at the edge. However, knives of the ordinary thickness will be sent, if ordered. Old round knives will be ground and returned, post-paid for 30 cents cash in advance.

No. 233. Rein Tin Trimmers, each50c

THE TOOLS IN THIS CATALOGUE . .

Are made by one, who, having worked at the bench in a saddlery house for a number of years, knows all the little, but important details. And to those who know the quality and prices of the saddle stamps, it is hardly necessary to say that means are used in their manufacture which are not known to other stamp makers.
